

BlackBerry Setup

You can set up your blackberry to receive emails via **POP/IMAP** or **Enterprise Activation**.

POP/IMAP

1. Locate the **Email Settings** icon on your device and click on it.
2. You will now be in the **Email Accounts** screen, select **Add**.
3. In the **Email Setup** screen, select **Other** and click **Next**
4. Next, enter your full **email address** and **password**, then click **Next**
5. Once complete, you will get a notification that your account was setup successfully and will begin receiving messages to this folder in about 20 minutes.

Enterprise Activation

Before you use the Enterprise Activation option, please contact Kined Support support@kinedsystems.com to obtain an **Activation Password**.

1. Click on the Options icon on your home screen
2. Then select **Advanced Options** and then **Enterprise Activation**
3. In the **Enterprise Activation** screen, enter your full email address and activation password as supplied by Kined Support
